---

you are probably right; however, as you know I have nothing to do with how the Trustee allocates funding other than insuring the activities are in compliance. Regardless, I am here 24/7 should you need any information.

**Mickey:**

**Could you find out if this includes cleaning/disposal of the empty containers after bulking (ie. drums, totes, 5-gallon containers and smaller containers). Obviously, if they dispose, they can have the metal value of the containers but I would preferrably like these removed off site and disposed**

or recycled if possible with the money available.

Thanks

**Subject: General**

See attachment concerning Dynamic. According to discussions with the Trustee this afternoon he has only \$40K in funds remaining. IKON submitted their cost proposal to address the issues outlined by you and have have submitted my recommendations to the Trustee. The items highlighted in yellow on the attachment is what I recommended to the Trustee to retain IKON to address because IKON's lab pack cost proposal is outrageously high. Your comments would be greatly appreciated.
